“ Our prayers to the Kaufman family . Roby was a part of the MTI/CDI family for many years and we always valued his technical talent and his candor to light up the room.

He mentored many and befriended everyone. Since I first met Roby in 1981 we bonded in a way that I knew his guidance was on point and supported our mission to take care of our clients.

Thank you to the family for sharing him with us during those years. May his memory be eternal

“ We moved to Sun Valley in 1973. Not quite sure when I met Gragg, but I remember the whiz he was at Bridge and how he'd play and put up with all of us women. Also remember when his house slid down the hill into the road. I really enjoyed knowing the whole family and watching to boys grow up. Linda, Roby and Eddie and families, I am sooo sorry for your loss. Please know that my thoughts and prayers are with all of you.

“ We send our condolences to the family. I have never met Mr Kaufman, however, I feel that I know him. In August 2015 we purchased the house on Strawberry Rd that he built. We love the house and lot and I always wanted to meet him. The previous owners left us all his drawings, invoices, and blueprints for the house. I have spent many hours looking through them and found them and his detailed drawings of great help. I am a retired farmer that has always enjoyed carpentry and outdoor work and this place is perfect. I can see his attention to details everywhere I look. That is the very way I would have had it built. I am also a woodworker and have a full wood shop in the basement, I always thought he would have enjoyed seeing it.

“ To say this is a difficult loss is an understatement. I knew him since high school. Both of us were only children and became fast and close friends. He was the Godfather of my daughter and as proud as we were that day she was born. Over the years although we didn't see one another as often I knew he was there. I loved his kindness, humor and loyalty to his family and friends. He made a big impact on my life and I feel a void knowing he isn't here . I loved my friend and will miss him.

“ Sorry to hear another old friend has passed as we all will at some time. I first met Roby in 1967 when I returned from Vietnam. I had been offered a job at the FMC plant in South Charleston (gone now) which at the time was on strike. The salaried personnel had been running the plant and Roby was one of them. They assigned me to him and he showed me the job. Since the strike was a lockout the company supplied food to those inside. There were refrigerators on all floors and Roby knew where they all were. He never passed one up without grabbing a fudgesicle or ice cream sandwich. Later after the strike I began working in the drafting room with Roby and others. Over the ensuing years I worked with Roby at several different companies. He was always the "old man" in a young man's body appearing grumpy most of the time. I enjoyed my time working with him and he trusted me to check his work on many occasions. He had a great work ethic and always got the job done. We served together in the Air National Guard here in Charleston. All good memories. Rest In Peace my friend.
