“ *Carol was the hardest working woman I know, always willing to help a friend. She absolutely honored her husband ,her mother, father and brothers and took care of them until their deaths. It always my delight knowing her. I will miss my good friend.*

“ I had the privilege of taking care of Carole at Elmcroft assisted living. She was by far one of my favorite residents there. I remember the last time I got to see her, she said "oh im so glad its you" she sure knew how to make my day. I remember going on an outing with her to Walmart and to lunch. We had a good conversation and a lot of laughs. She will always have a special place in my heart. Fly high with the angels Carole. Love and miss you!

“ In the summer of 1971 I went to Dr. Bob Fisher, the psychologist at Fenton Art Glass because I needed a job. My husband was management at the gift shop. He asked me what my favorite job ever had been and I answered "Working as a nurse aide." He said he could get me in nursing school. I scoffed because there was a year's wait. I was in in 2 weeks, thanks to Dr. Bob and Carole, who was acting head of the nursing dept. @ Parkersburg Community College. I went on to get a BSN & didn't retire my license until 2017. I ran into her years ago and told her how grateful I was. (She told me the acting position was the worse job she ever had.) I hope I made a difference in people's lives because of your mother.

“ Carole was my former neighbor. She was always available when we had a medical issue to offer support and reassurance. She was such a nice person. My condolences, Julie and Lesley. She will be missed, but she will always be in your heart!

“ I will always remember the many mornings I spent at her table drinking coffee. It was my morning routine for many years. We had so much fun shopping at the Gift Market and the Furniture Market. She taught me so much about the business and about life itself. She is missed.
