“ *John Czensak was a very good and decent man! I think that says a lot about a person. If John tolerated you he tolerated you, if he liked you he liked you, if he didn't like you then there was no doubt. I met John as a brand new lab technician in 1990 and he/I found we shared a common bond as Veterans. Every Veteran's Day since 1990 I received a card in the mail from John including this year. Even though I know he was ravaged with pain and sickness he still took time to let me know he was thinking about me. He had a big heart, a great laugh and a great love of this country and the men/women who signed up to defend it. Rest in peace John! I will cherish my card even more this year. DAVID LESTER*

“ My first words I want to say to my Brother Johnny are Your Wings were ready but our Hearts were not. I do know that God has another Special Angel and you are at Peace. My brother Johnny and I were close growing up-beginning with he was just 13 months older than myself. There were actually five children in our family growing up together and we were all close - like stepping stones. We were true baby boomers loved and raised by Happy Hard Working parents. We did many family activities beginning with Sunday Church and meals at a table with prayers. We celebrated every holiday and event and went on many picnics and outings. Johnny always had so much energy and a special smile all his own. Building snow forts and snowballs with chasing - ice skating and tobogganing favorite winter activities. As the years passed we grew into families of our own and moved to different geographic locations never losing touch with our early years forward to now. He moved to West Virginia and loved the countryside where he lived . He had a good job, met Nancy his wife (His best friend and love of his wife). They had many wonderful neighbors /friends they had grown to love. I wish to thank all you wonderful neighbors who became genuine friends and were there for him when Nancy died and he developed ongoing health issues. I thank God for each and every one of your care and kindness. There shall always be a special place in my heart for him and shall cherish the day we meet again. I regret I cannot be there for his well earned and deserved Veterans Military Tribute and honors but God knows why but my daughter Abby and I will go to the beautiful Veterans Memorial Cemetery in the countryside of Canton Georgia on the date and time to express our Love and Tribute so He can feel our Love. We go there often to visit , pray and take flowers on the Special Days that Honor our Military Veterans, our Great United States of America and Flag. Johnny is always proud when we go there and so we will continue our memorable visits. We Love You Johnny - from your proud sister Nellie and niece Abby.
