“ *I knew Mike through work, first with Highways many (many) years ago, and later with Cabot. Most of my interactions with Mike took place during his tenure with Cabot. I appreciated his easy-going way in our meetings, but also his personal commitment to do things right. I would always walk away from our meetings with satisfaction and knowing that Mike would do his best to make things right (and safe).*

My thoughts and prayers go out to Mike's family. Please accept my condolences and and sincere appreciation for this good man.

“ Mike was a kind gracious man. As an engineer, he thought that 2 2 should equal 4 and when it didn't, he could figure it out and fix it. As the terrible mind debilitating disease progressed it became harder and harder for him. I remember one summer afternoon he called me and asked me to come over. He wanted to talk to me. I had no idea what was on his mind. He said Jim I am afraid that I will hurt Linda and I think that I should go into a nursing home. I was shocked at first but knowing how he cared for Linda and his family putting them first was not a big surprise. They were the most important thing to him.

I will miss Mike as a neighbor and friend
