“ *We're sorry to have missed the services for Dr. Parsons. We figured he had succumbed to Parkinson's, but prior searches came up empty. Found the obit today - 4years late. He was a brilliant doctor and a sweet person. Our current dermatologist also describes him as brilliant. We have never had another doctor to match him. His office was impeccably run, as well. He was a complete professional. We still miss him. Our deepest sympathy to his family.*

“ *Brenda and family,  
I'm so sorry to hear of your loss. Dr. Parsons was a brilliant man who worked with precision. I believe it speaks volumes that he had 2 such long time employees as Debbie and Joan. I remember the day I was assisting Dr. Parsons with a surgery and came to learn of the onset of his awful disease. I was glad to have had a couple brief visits with him at Cedar Ridge. I have to kind of chuckle when I remember discussing with Debbie and Joan of how when we each began working for Dr. Parsons we wondered how we were going to be able to live up to his expectations of how the office was to be run. The man knew his stuff and I'm glad to have had the privilege to work for him. His reputation still speaks for itself seeing that after I "retired" to be a full time mom years ago, in the recent past I had someone in dermatology ready to hire me because they knew I'd worked with the best. God bless.  
Thoughts and prayers are with you all

“ So sad to lose a very special man. Dr. Parsons was always a gentleman in his practice, and had a great sense of humor. He had been our family's doctor for along time. We will never forget him. “ I was a patient of Dr. Parsons for 17 years. Early on, when he used a spark-gap-based instrument in my treatment, I was reminded of some electronics history, and discovered that we were both radio buffs. Until his retirement, we had many conversations regarding our interests in shortwave listening, and even exchanged reading materials. I've missed our discussions...

“*Kyra and I moved to Texas a couple of years ago and, therefore, will not be able to visit to personally extend our condolences. However, we want you to know that we both had the greatest respect for Dr. Parsons and appreciated so much the care he provided both of us and Andy over the years. We are saddened to hear of his passing.*

*I recall a discussion with our family doctor, Dr. Mark Moreland, about something he had noticed on my skin. I mentioned that Dr. Parsons had examined it and determined that it was of no concern. Dr. Moreland said, "Nolan Parsons ... Well, you can't do any better than that!" My thoughts, exactly!*

*Your family will be in our prayers. God bless.*

“*I was a longtime patient of Dr. Parsons. He was a great, caring and attentive doctor. My visits were generally annual and I looked forward to seeing him and enjoying his quiet sense of humor. When he retired, my friends and I who were patients were at a loss to find another doctor who could give us the comfort level we enjoyed with Dr. Parsons. I am very sorry for your loss and extend my deepest sympathy to each member of his family.*
