“ My Husband and Steve just found out that your Mother has passed away. Let me introduce myself. My name is Shelagh Thomas-Spafford and am the daughter in-law of Ed and Lois Spafford whom were friends of Sally and George. Sally and George came out to Davis, California to visit Ed and Lois in 1994. The couples met on some trip in the past and became friends. Sometime later your Mom and Dad arrived in Davis for a week or so stay with Ed and Lois. A few days into their trip our 4th child, Kevin, was born with some serious medical issues and needed to be transferred to U.C. Davis Medical center in Sacramento. We packed up our other 3 children and headed to Davis. Your parents showed us so much love during our stay. Instead of taking day trips with Ed and Lois as planned, your Mom and Dad helped keep our children happy. They played endlessly with Caralee, who was five at the time, and our 2 year old twins, Scott and Stan. Caralee still remembers Sally and George playing rummikub with her. Caralee loved the game... I'm sure the rules were changed a wee bit to make the game a wonderful time for Caralee! Shortly after their trip, Sally and George mailed Caralee a package. To Caralee's surprise it was Rummikub. We still play the game even to this !!!

*During one's life unexpected angels appear. Sally and George were indeed our unexpected angels during that really hard time in our lives.*

*May you be blessed with beautiful memories of both your Mom and Dad.*

*Blessings, Shelagh*
